Dear Troops:

I had the privilege to work with the U.S. military while making a movie about the Russian invasion of the Republic of Georgia in 2008. I learned while making the film how easily freedom can be taken away.

I wish I could more fully express the gratitude I have for what you do for our country. What you all are doing with your lives has purpose – a greater purpose – to serve and protect this nation and all the families that know freedom.

I love my country. I'm so grateful to have it; I'm grateful that we have you to protect it. There is no greater military than ours.

Thank you for your courage and commitment. And safe travels back to your home.

God Bless you,
Johnathon Schaech
